

**Tuesday, September 29**

**Venue: Conference Room 406**

**Systems Biology Café**

Center for Complex Biological Systems (CCBS) in University of California, Irvine, is one of the most important partner organizations of Ph.D. Program in Human Biology (HBP), University of Tsukuba. In this session, we will have a talk of cutting-edge research related to systems biology from CCBS professor, Dr. Hughes, to discuss future development of human biology.

Session Organizer: Hiroshi Hasegawa

	<b>Chair: Arthur D. Lander, University of California, Irvine</b>	
12:00-13:15	Christophar C.W. Hughes	University of California, Irvine
	Body-on-a-chip: At the interface between physiology, engineering and systems biology
