## Business Leaders' Seminar

What I learned through the development research of personal care products: — Real pleasure and unpredictable traps —

# The December 8 16:00 - 18:00 Room 706, Laboratory of Advanced Research Building

### Dr. Toshiyuki Suzuki

Research Planning Division of Nikkol Group Cosmos Technical Center Co., LTD Executive Officer Tokyo University of Science Visiting Professor, Ph.D.

#### Abstract:

In general, success stories are often told but stories of failure are rarely told. But bitter and painful experiences might be fruitful for your life. These topics are all my real experiences through product development research.

This seminar will be held as a part of the class " Business Leaders' Seminar" in Human Biology Program

#### Ph.D. Program in Human Biology
