MEXT Program for Leading Graduate Schools (adopted in 2011)

Ph.D. Program in Human Biology

What is the Human Biology Program?

The Human Biology Program is a 5-year PhD program designed so that students obtain training in the medical and environmental sciences, and related fields, including agronomy, physics, and mathematics. The aim of this program is to foster students who will become global leaders in academia, business, and government organizations. We welcome highly motivated and talented applicants from any scientific disciplines.

We offer students an extensive
range of opportunities.

Internationalism

Financial
support

Travel
overseas
