

筑波大学  
National Taiwan University

# NTU Lounge

Tuesday, September 29, 2015

17:15 – 18:05 p.m.

Tsukuba International Congress Center  
Conference Room 406

As National Taiwan University partners with University of Tsukuba, a new shared vision of sustainable development excites us to think what we can collectively achieve in the future. Delivering on this revolutionary agenda requires effective models of cooperation that involve all disciplines and sectors, much like how “Campus-in-Campus Initiatives” are supporting inter-university collaborations of education and research to concrete social responsibilities. Now, these two sister universities are co-hosting “NTU Lounge”, to explore from ongoing action items, to common interests and strengths as to unlock further possibilities of synergy. This is a relaxed ambience where ideas from all over the world are to meet together, a cradle of new prospects and friendship that are to be nourished with definite plans. Your participation is needed. **Welcome!**

17:15-17:20

## Opening Remarks

Prof. Luisa Shu-Ying Chang

Vice President for NTU International Affairs

Prof. Scott Fang-Jen Lee

Vice President for NTU Research and Development

17:20-17:35
